Specification

Weight : 61g + 7.2g / Plugs

Material : T/C

Length : 2200mm

Width : 30mm

Thickness : 1.5mm

JINNRAY®

HOW TO WRAP BAR TAPE?

- 1 The bars on the right and left are being taped from inside to outside.

- 2 Begin the wrap

Start at the bottom of the bar, and overlap half the width of the tape from the end.

- 3 The finishing tape

With the bike facing towards you, apply the finishing tape half on the bar tape and half on the handlebar, wrapping away from you.

- 4

Push the ends of the tape into the ends of the handlebar, and secure them by tapping in the bar end plugs with a rubber mallet.
